

# *AS-Xpress Register*

Get at least twice as much done with Programsupports solution.

A register that otherwise would have taken several days (or weeks) to manually add into your system is created with "AS-Xpress Register" in a fraction of time (about 5 minutes).

All is done in the cloud so you don't need any specific software or other requirements, just an internet connected computer, smartphone or tablet.

# AS-Xpress Register

## Saves time

Our solution "AS-Xpress Register" streamlines your work with your register. You get time for other duties, collections or more detailed registers. In a couple of minutes you can transfer your register from Excel to your own system (xml compatible) e.g. Visual Arkiv, Arkis or AS-Xpress Register DB. In addition we have also created a standalone label function that produces standardized labels for the entire registry (PDF file).

## The choice is yours

One simple login with your license key on our website and you are on your way to simplify your work. Create standardized labels, register as HTML or PDF, XML-files for import in some systems, the choice is yours. All is done in the cloud with information from excel.

## Simple Software Management

Licensing and prices depends on your organizations structure. We will always come up with a solution that's best for you and your situation. Our ambition is low prices because it should not be a hindrance for your development.

## Requirements...

- Internet Connection
- Computer, Smartphoner or Tablet
- License for AS-Xpress Register DB
- Microsoft Excel, OpenOffice Calc or LibreOffice Calc.
- Adobe Acrobat Reader, Foxit Reader or similar
